

*Building Sustainably*

**BUILDING  
GREEN**

*If we build more sustainably today, we can ensure the next generation will have enough to flourish and grow.*

Homes built with future generations in mind

## Sustainability for Everyone

Why can't sustainability be something everyone can afford? At Habitat, we build all our houses to *ENERGY STAR*® standards, with best-in class insulation and windows to allow our families to spend less on utility bills and more on the things they love. **Habitat for Humanity Lake County** has taken an extra step, certifying our houses to *Leed*® for Home standards, and **building 2 new Solar Panel equipped homes this year.**

**Fun Fact:** Did you know that over one million pounds of garbage were diverted from the land fill last year thanks to the Gurnee ReStore Shop?
