

The Jameka and DJ Anderson Family

We are the Anderson Family and we have two children. We applied for Habitat for Humanity because last summer, we found it in our hearts to care for our niece and nephews. Now, we have 4 children ages 13 and under. We need the space of a home for a large family to grow and play.

Through prayer, we asked God for guidance and strength, because we know that prayer changes things. God has been the head of our lives and our light down dark paths. We realize times can get hard, we never expected it to be easy. We welcome all the blessings as our hearts keep growing. We thank God for Habitat for Humanity for making it possible for us to build our home.

We look forward to the opportunity to building a new relationship with Habitat and working with other families and volunteers. We really appreciate the Habitat program because it helps families in so many ways and our family is honored to start this Glorious Journey.

Jameka is a stay at home mother and Hair Stylist and Deveran (DJ) works for North Chicago Community Partners as a Tutor for 3rd grade students.
